Course Daily Schedule

Day 1

- Introduction to AI technologies and their foundational concepts.
- Overview of AI applications currently transforming higher education.

Day 2

- Detailed exploration of AI tools for curriculum development and personalized learning.
- Hands-on workshop on integrating AI software and platforms into educational practices.

Day 3

- Review case studies that show how AI has improved learning outcomes and operational efficiencies.
- Data-driven analysis techniques to measure AI impact in educational settings.

Day 4

- Discuss the ethical considerations and challenges of using AI in educational environments.
- Speculate on future trends and the evolving role of AI in education, preparing for what's next.

Day 5

- Reflective session on key learnings.
- Informal networking event to share experiences and insights.

ErasmusNostrum.org

Get to know Athens!

In addition to the course, we offer optional activities in Athens to enrich the learning experience by immersing participants in the cultural and historical wealth of the city, and form lasting professional relationships and share diverse insights!

Activity 1

- Welcome Dinner in the center of Athens

Activity 2

- Visit Acropolis!
